

Education

University of California, Davis

3.9 GPA · B.A. Design & B.A. Psychology

Experience

HackDavis- Brand Design Director & Design Lead

June 2026 - Present

Leading brand development from **0 to 1**; creating cohesive brand identity with **color and typographic systems, and visual guidelines**; designing merchandise through production including assets while mentoring design team members

Design Interactive - UI/UX & Product Designer

March - June 2026

Optimized **first-time user experience (FTUX)** onboarding for a 0 to 1 mobile concept called ThreadIt. Perceived performance by engineering a non-linear paced progress bar and continuous feedback loops to drive immediate user activation and retention .

Sachacks - UI/UX & Product Designer

October - February 2026

Led product design and coordinated with a **cross-functional design and developer team** and shipped Hacker Hub, a responsive web application used by **200+ participants and judges**.

#Include - UI/UX & Product Designer

February - June 2026

Designed and shipped responsive website for local clinic organization with **cross-functional team of 5 designers and 7 developers**; translated user research into on-brand designs with improved user flows and content discoverability.

Leadership

Design Interactive - Fellowship Manager

September 2026 - Present

Manage and mentor **50+ design fellows** through structured UI/UX program; develop and deliver comprehensive curriculum covering design fundamentals, process stages, and hands-on practice with weekly educational materials and presentations
